

DEFEND OUR PETS . ORG

As pet owners deeply affected by the recent tragic deaths of many of our animal companions, and the failing health of many, many others, we ask for your support and assistance in preventing a recurrence of this disaster.

ACTIONS REQUIRED

Specifically, the Petitioner seeks the following:

1. Tougher laws and regulations concerning the quality of pet food sold
2. More stringent inspection of pet food
3. Funding to assure these inspections
4. Certification of foreign inspection standards PRIOR to allowing imports
5. Accurate labeling that shows the quality of ingredients
6. Labeling that shows ingredients from foreign sources
7. A ban on foreign imports if inspection standards are lax
8. Tough penalties for violators

Our pets can't defend themselves against these abuses, so we must!
